Reporting LEO: Dunne, Matthew (msp3943 / Norfolk Homicide Squad / Massachusetts State Police)
Report Status: Approved
Report Status Date: 05/15/2025
Approved By: Fanning, John (msp3253 / Massachusetts State Police)

Synopsis

On February 22, 2025, at approximately 7:32AM, Randolph Police and Fire responded to [REDACTED] for a report of an unresponsive 10 year old female. The decedent, [REDACTED] (DOB: [REDACTED]), was transported to Beth Israel-Milton where she was ultimately pronounced at approximately 8:26AM by Dr. Rachel Gershaw. I proceeded to the hospital and spoke with medical staff who treated the decedent. Dr. Gershaw stated there were no concerns for abuse or neglect and observed no trauma. RNs DiCarlo and Hurley stated that when trying to place an oral airway, medical staff were unable to do so because of an obstruction. They then placed a surgical airway in the decedent's throat, which relieved pressure and at that time the obstruction shifted up into the decedent's mouth. The obstruction appeared to be chewing gum. I requested that the nurse place the item in a specimen container and make sure it goes to the OCME. I then contacted the OCME directly and requested that they secure the specimen at the time of transport.

I then proceeded to the home. I learned that the decedent had last been seen at around 7:00PM to 8:00PM the previous night by Dukens' cousin, Merline Lexis (DOB: [REDACTED]), who lives at the home with her daughter. The decedent had no known medical issues or recent illnesses. The home was clean and well-maintained. I was informed the decedent's bedroom door had been locked and she had been found on the bed. I observed a pack of chewing gum and three empty chewing gum wrappers on the dresser. There was a small amount of blood/purge on the pillowcase and on the floor where she had been moved for CPR.

The OCME accepted jurisdiction and CSSS documented the scene as well as the decedent at the hospital with digital photographs. DCF notified by Randolph Police.

Narrative begins on the following page.

1. On February 22, 2025, at approximately 8:02AM, I, Trooper Matthew Dunne #3943, was notified by the H Troop duty office that Randolph Police and detectives were on scene at [REDACTED] [REDACTED] investigating an incident in which an unresponsive 10-year-old female had just been transported from the home to the hospital. I contacted Lt. Daniel Zaiter, at which time I learned that [REDACTED] (DOB: [REDACTED]) had been found in bed by her father a short time ago. She was not responsive and a family member called 911. Randolph Police and Fire responded to the scene and [REDACTED] was transported to Beth Israel Deaconess Hospital – Milton. Lt. Zaiter informed me that the bedroom where [REDACTED] had been found was secured by Randolph Police. I informed Lt. Zaiter that I would be responding directly to the hospital to gather facts and requested that Randolph Police take a statement from the father and continue to gather information at the home.

2. At approximately 8:46AM, while en route to Beth Israel Deaconess Hospital – Milton, I spoke with Lt. Zaiter again, at which time I learned the juvenile female had been pronounced deceased. Upon arrival at the hospital, I met with Dr. Rachel Gershaw. She stated she had pronounced at 8:26AM. [REDACTED] had arrived by ambulance reportedly in cardiac arrest and unresponsive. During treatment at the hospital, a surgical breathing tube had been emplaced by medical staff. When questioned, Dr. Gershaw stated she had not observed any trauma to [REDACTED], nor had she observed any indications of abuse or neglect. When questioned if any family members were still present at the hospital, she stated [REDACTED]'s father and a cousin had already been there, but they had since left.

3. I entered the trauma room to view the body. I observed the surgical airway that had been emplaced. Tpr. Kyle Anderson #4658 from Crime Scene Services arrived to photograph the juvenile. Inside the trauma room I spoke with RNs Allie DiCarlo and Meaghan Hurley, both of whom had been part of the team that treated [REDACTED]. RN DiCarlo stated that medical staff initially attempted to place an oral airway, but were unable to do so because of an obstruction in the patient's airway. As a result, medical staff elected to do a surgical airway. When the incision was made, RN DiCarlo stated it relieved air pressure in the airway and the obstruction shifted up into the decedent's mouth. At that time, the item was removed from the mouth by Dr. Brady. RN DiCarlo stated the obstruction that had been blocking the airway appeared to be chewing gum. She pointed out the object which had been placed on top of the hospital bed next to the decedent's head. At my request, RN Hurley placed the object in a specimen container and labeled it for transport to the OCME. RN Hurley used latex exam gloves while handling the specimen. I observed no obvious trauma to the

decedent. Tpr. Anderson documented both the decedent, as well as the specimen recovered from her airway, with digital photographs. I then notified the OCME about the item that had been removed from the airway by medical staff, and informed them it had been placed in a specimen container for transport to their office.

4. Tpr. Anderson and I departed the hospital and proceeded directly to [REDACTED] [REDACTED]. Upon arrival at the home, I met with Det. Trevor Clark. I learned that the 911 call had been placed at approximately 7:32AM. Randolph Police and Fire had been dispatched to the residence for a report of a 10-year-old who was not breathing. Upon the arrival of first responders, the juvenile's father, Dukens P [REDACTED] (DOB: [REDACTED]), was conducting CPR on her. It was reported that he had moved her from the bed down onto the floor next to the bed and was performing compressions. Det. Clark provided me with the names of all residents living at the home. I was informed that, according to Dukens, [REDACTED] had no known medical issues. Det. Clark briefed me on the preliminary statements provided by Dukens, as well as the other adult residents inside the home at the time of the incident, which are documented in the Randolph Police reports (Randolph Police case number: 660461).

5. I proceeded into the home and noted that the interior was generally clean and appeared to be a suitable environment for children. I continued down the first floor hallway to the second bedroom on the left, which was [REDACTED]'s bedroom. The room had been secured by Randolph Police. Tpr. Anderson entered the room and documented the interior with digital photographs. I then entered the bedroom. I observed what appeared to be dried blood and a white tissue or wet wipe on the wooden floor directly in front of the doorway where medical intervention had taken place. I observed what appeared to be dried blood and a dried brownish liquid on the pillowcase on the top of the bed. The bedsheet on the upper corner closer to the doorway was pulled back. I observed two brown boots against the wall shared with the bedroom next door. There was also a pink bag against the wall. There was a pillow on top of the nightstand next to the bed, as well as a lamp, a thermos, crayons, and pencils. On top of the dresser to the right of the doorway I observed two partially drank Aquafina water bottles, pieces of paper with drawing and writing on them, a spiral bound notebook, a gray Amazon smart device, a necklace, a package of wet wipes, folded paper towels, an opened bag of dum-dum lollipops, an opened container of Extra spearmint gum, three discarded gum wrappers matching those in the pack of gum, a pink plastic toy, one white cubed die with black dots, and a pink gem-shaped object.

6. Det. Clark and I then entered the kitchen to speak with Dukens P [REDACTED]. Also present were Hadassa V [REDACTED] (DOB: [REDACTED]) and Merline L [REDACTED] (DOB: [REDACTED]), both of whom are residents of the home and relatives of Dukens. I noted that Dukens was just staring straight ahead as his cheek quivered. I introduced myself to Dukens and informed him I had been at the hospital prior to my arrival at [REDACTED]. I informed Dukens about the next steps that would take place once the OCME took custody of [REDACTED] at the hospital.

7. DCF was immediately notified of the incident by Randolph Police. The decedent was transported to the Office of the Chief Medical Examiner. The cause and manner of death are pending further study.

Massachusetts State Police
INVESTIGATIVE REPORT 2025-112-154/1

Report Date: 02/24/2025

Primary Information

Description: Meeting with Shirley P [REDACTED] and Atty. Joseph Lally

MAILING ADDRESS [REDACTED]

Narrative begins on the following page.

1. On February 24, 2025, I, Trooper Matthew Dunne, was contacted by Attorney Joe Lally, who represents Shirley P [REDACTED]. Attorney Lally stated he was at the Randolph Police station and wished to speak with investigators. Attorney Lally stated that Shirley P [REDACTED] and her husband, Dukens P [REDACTED], were in the midst of a contentious divorce and that Shirley wanted to share some concerns regarding Dukens as it relates to the death of their daughter, [REDACTED]. Attorney Lally and I arranged to hold a meeting at the Norfolk District Attorney's Office at 2:00PM that afternoon. Attorney Lally and Shirley arrived for the meeting and they were joined by Renisha T [REDACTED] and Rosenie M [REDACTED]. The meeting was held with ADA Greg Connor, Chief Trial Counsel and Chief of Homicide, Lt. John Fanning, Norfolk SPDU executive officer, and I.

2. During the meeting, Shirley expressed general concerns with her husband. She stated that custody of [REDACTED] was in dispute and that a guardian ad litem (GAL) had been appointed by the judge that was presiding over their divorce proceedings. She stated that the GAL wrote a report that was finalized recently, and that the report was not favorable to Dukens. Shirley stated that Dukens was upset with the GAL's finding and had spoken to [REDACTED] about it. She stated Dukens had threatened [REDACTED], saying that she would be sorry and that [REDACTED] had betrayed him.

3. Shirley relayed further concerns, stating that when [REDACTED] had been in Dukens' care, she later reported that her food smelled or tasted funny. Shirley stated that several weeks prior to [REDACTED]'s death, she had returned home with her bag covered in powder. On another occasion, [REDACTED]'s lunch bag had been filled with dust. Shirley stated that at Dukens' home, the door to [REDACTED]'s bedroom can be locked and that she can only communicate with Dukens via an Alexa device when she is in her room.

4. Shirley stated that during their divorce proceedings, Dukens has been dishonest about his finances. She also reported that Dukens had been framing her, and he had fabricated text messages between the two of them, which he and his attorney presented to the court.

5. Shirley did not present any specific allegations against Dukens with regard to the cause of [REDACTED]'s death, but did express general concerns about Dukens' character and honesty. Shirley stated that because Dukens is employed as a nurse, he would have access to certain medications and substances. She also reported that [REDACTED] did not typically chew gum. Shirley, T [REDACTED], and M [REDACTED] requested that we revoke Dukens' passport.

6. ADA Connor, Lt. Fanning, and I assured Shirley and her friends/family that her concerns would be taken seriously and that we were still in the initial stages of investigation.

Narrative begins on the following page.

1. On February 24, 2025, at approximately 4:00PM, I, Trooper Matthew Dunne #3943, contacted the medicolegal investigator assigned to the [REDACTED] (DOB: [REDACTED]) case, Tanneke Burns, to request an expanded toxicology screen. The mother of [REDACTED] had expressed concerns regarding her ex-husband, specifically citing that he is a nurse at a hospital and would have had access to medications. For that reason, I requested that the scope of the toxicology screen be expanded.
2. MLI Burns stated she would relay these concerns to Dr. Grivetti and the doctor would make a determination pursuant to this request.

Massachusetts State Police
INVESTIGATIVE REPORT 2025-112-154/18

Report Date: 03/17/2025

Narrative begins on the following page.

1. On March 17, 2025, I, Trooper Matthew Dunne #3943, contacted Advanced Property Management (APM), the management company for [REDACTED]. I spoke with Senior Community and Leasing Manager Yolanda B [REDACTED] and requested video surveillance footage from that address for the time period of 8:00PM to 9:15PM on the night of February 21, 2025. At approximately 1:30PM on March 17th, Ms. B [REDACTED] notified me that the video had been extracted. I then proceeded to the APM office, located at 1226 Hyde Park Ave. in Hyde Park, MA. Once there, I was able to confirm that the timestamp on APM's digital video recorder (DVR) matched the time displayed on my iPhone exactly.
2. Ms. B [REDACTED] provided me with the clips she had extracted via a Dropbox link, which she emailed to me at 2:21PM. I then forwarded the link to Multimedia Director/Certified Forensic Video Technician Coleen Crawford to extract and archive the footage.
3. Upon downloading and reviewing the files, Ms. Crawford noted that some of the files were experiencing playback issues. I contacted Ms. B [REDACTED] the following day, March 18th, and asked if I could return to the APM office with Ms. Crawford so that Ms. Crawford could transfer the video files directly onto a thumb drive, to which Ms. B [REDACTED] agreed. Ms. Crawford and I arrived at APM's office on March 18th at approximately 11:40AM. At that time, Ms. B [REDACTED] transferred the video files directly onto a USB drive provided by the Norfolk District Attorney's Office.
4. A review of these video files showed the same playback issue. I notified Ms. B [REDACTED] of the problem, so Ms. B [REDACTED] in turn notified Alex A [REDACTED] from APM's IT support team. After speaking with Mr. A [REDACTED], Ms. B [REDACTED] informed me that he had looked into the issue. Mr. A [REDACTED] determined there was a problem with their network video recorder (NVR), which resulted in problematic playback of some of the extracted video files. Ms. B [REDACTED] informed me that Mr. A [REDACTED] was able to reset the NVR, however, this would only correct the problem going forward, but it would not correct prior footage.
5. I reviewed the video surveillance footage, which shows the parking lot outside of [REDACTED] and its front entrance. It shows that at 8:10PM on February 21st, a vehicle consistent with an Audi Q5 sport utility vehicle enters the parking lot to [REDACTED] from Almont Street. The vehicle immediately parks. At 8:16PM, a female can be seen proceeding from the second floor of [REDACTED], down the front stairwell, and out the front door into the parking lot. At that time, she appears to be on her phone which she is holding with her right hand. The Audi then turns on its lights for a moment and the female begins walking toward the vehicle. As she approaches the Audi, she appears to hang up the phone. The female then gets in the Audi through the front passenger side door.
6. At 8:18PM, the driver's side door quickly opens and then closes. There is no activity visible in close proximity to the vehicle, nor does anybody approach or exit the vehicle, until 8:58PM, at which time the front passenger side door opens, and the female party exits the vehicle. The female then walks back to the front door of [REDACTED] and reenters the

building. At the same time, the vehicle backs out of the parking space and then exits the parking lot toward Almost Street, the same way from which it had entered.
