The following narrative is submitted by: PTL. PATRICK CASTILLO ID#:137
Email: patrickcastillo@randolphmapolice.com

Officer Castillo 137
Randolph Police Department
February 22, 2025, 0732 hours
Northwest Sector, Cruiser 743
Shift A
Bodyworn Camera: Active

On February 22, 2025 I, Officer Castillo was assigned to marked cruiser 743 for the Town of Randolph. At approximately 0730 hours, I received a call from dispatch regarding a juvenile having a seizure and possibly not breathing in the residence of [REDACTED]. Multiple units responded as well.

Upon our arrival, we entered the residence and went straight for the daughter's room, later identified as [REDACTED] at the end of the hallway on the left. Upon entering the room, I observed the father, identified as Dukens F [REDACTED] was conducting CPR on [REDACTED] on the floor with the head facing towards the door. Moments after officers' arrival, the Fire Department arrived, entered the room and carried [REDACTED] out of the room and went straight to the ambulance. As the Firefighter was carrying [REDACTED] body, I observed both her arms were stiff which appeared as if the Firefighter was picking up a mannequin.

While in the room, I observed there was a red colored liquid on the floor, possibly vomit and used wet wipes. I also observed dried blood on the pillow and other dried reddish liquid on the bed sheet. Upon observing the room, there were no signs of forced entry or any sign of physical altercation or struggle. Photos of the scene were taken.

While the Fire Department was taking care of Isabella, I was able to talk to Dukens just outside of the room. I observed Dukens was out of breathe from conducting CPR and was visibly shaken from the incident. When I asked Dukens regarding the situation, he stated that he went to check on Isabella at approximately 0700 hours. Dukens stated he noticed the blood and realized [REDACTED] was not breathing. Dukens then put [REDACTED] on the floor and conducted CPR while Dukens' cousin, later identified as Merline I [REDACTED] called 911. When I asked Dukens if how many compressions he did, he stated he could not remember. When I asked Dukens when was the last time she saw [REDACTED], he stated she was last seen before bed last night at approximately 2300 hours. When I asked Dukens if [REDACTED] had any medical conditions or takes any medication, he stated she does not have any and that she is in good health. When I asked Dukens if [REDACTED] may have had any pain or complaints the night prior, he stated she did not have any.

After speaking with Dukens, I then spoke to another cousin residing in the residence identified as Diane A [REDACTED]. When I asked Diane regarding the situation, she stated she was woken up to the commotion and did not see much. Diane stated she only saw Dukens conducting CPR and was not aware of Isabella's well-being prior to our arrival.

3/6

The Fire Department transported Isabella to the Milton Hospital. Detective Clark was contacted and will respond to the scene. State Police CPAC was also notified and will be responding to the scene. A 51A will be filed on behalf of [REDACTED]

Detective Clark will be taking over the case.

Email: christopherjones@randolphmapolice.com

Randolph Police Department
Report of Sergeant Christopher M. Jones #117
Date: February 22, 2025
Assignment: Patrol Supervisor-731
Shift: 0000hrs-0800hrs
Body-Worn Camera Activated

On Saturday, February 22, 2025, at approximately 0734hrs, while serving as

4/6

the patrol supervisor within the Town of Randolph on the 12 am-8 am shift, I responded to [REDACTED] for a medical emergency. Dispatch informed responding units that a 9-year-old was unresponsive at the residence, and CPR was in progress.

Upon arrival, Officers Duong Tran and Patrick Castillo were on scene with emergency services personnel from the Randolph Fire Department. I briefly spoke with Officer Tran who informed me that the juvenile female was inside the ambulance. Officer Tran informed me that the outcome for the juvenile female did not appear to look good as it appeared that rigor mortis was setting in when CPR was initiated. Randolph Fire Department subsequently transported the juvenile female to Milton Hospital.

As I entered the residence, I went to the second bedroom to the left which is where the juvenile female was discovered. I noticed that the room appeared orderly, and my attention was drawn to a moderate amount of apparent bodily fluids on a pillow and a significant amount of apparent bodily fluids on the floor closest to the foot of the bed. The apparent bodily fluids looked to be a mixture of blood and vomit.

I subsequently spoke with the juvenile female's father, known to me as Mr. Dukens I [REDACTED]. Mr. F [REDACTED] informed me that the juvenile female is his daughter, and she was identified as [REDACTED]. Mr. F [REDACTED] appeared in shock due to his shaking and hearing the sound of trembling in his voice as he was speaking with me. Mr. F [REDACTED] informed me that he was the one who found his daughter unresponsive this morning and initiated CPR after calling 9-1-1. I inquired if [REDACTED] had any known medical issues or if she complained of not feeling well, and Mr. F [REDACTED] informed me that [REDACTED] did not have any known medical issues, nor did she complain about being unwell. It should be known that after briefly speaking with Mr. F [REDACTED], I informed dispatch to notify the Detective Supervisor, Detective Sergeant Fisher, for the purpose of having the on-call detective respond to the scene. At this point, the bedroom was considered a crime scene and officers stood by to make sure that no one entered the room for the purpose of tampering and/or disrupting possible evidence.

After speaking with Mr. F [REDACTED], I spoke with a female who was on scene, identified as Ms. Merline I [REDACTED] who is Mr. F [REDACTED] cousin and a resident of [REDACTED]. Ms. I [REDACTED] stated that she saw [REDACTED] at approximately 5 pm the day prior when she arrived home. Ms. I [REDACTED] informed me that [REDACTED] does not reside there full-time and that she resides with her mother in [REDACTED]. Ms. I [REDACTED] stated that she did not know [REDACTED] mother's name, nor did she have a phone number for her. Ms. I [REDACTED] stated that when she saw [REDACTED] yesterday, she appeared fine and did not mention that she was feeling unwell. Ms. I [REDACTED] stated that [REDACTED] went to bed between 7 pm and 8 pm. Ms. I [REDACTED] stated that when she was leaving for work around 11 pm, her daughter, [REDACTED] attempted to enter [REDACTED] room to play with her, but the bedroom door was locked.

After speaking with Ms. I [REDACTED], I spoke with Ms. Diane A [REDACTED] who is a roommate and resides at [REDACTED]. Ms. A [REDACTED] assisted me at certain points with translating due to Ms. I [REDACTED] and other members of the home being fluent in Haitian Creole. Ms. I [REDACTED] informed me that she was staying in the room next door with her 3-year-old daughter, identified as [REDACTED]. Ms. Anousca informed me that she didn't hear anything from [REDACTED] room during the overnight hours.

As I was standing by the bedroom, more individuals entered the residence. The first was Ms. Haddasa G [REDACTED], a cousin of Mr. I [REDACTED] and a resident of the home. She had just come from work around 8 am. I was unable to speak with Ms. G [REDACTED] due to her taking Mr. F [REDACTED] to Milton Hospital to check on the status of [REDACTED]. The second person to enter the home was Mr. Sterlin G [REDACTED], who had just come from driving for Uber. Mr. G [REDACTED] is a cousin of Mr.

5/6

I [REDACTED] and the significant other of Ms. Merline I [REDACTED], I briefly spoke to Mr. G [REDACTED] with the assistance of Ms. J [REDACTED] and Mr. G [REDACTED] informed me that he left home at approximately 5 am to drive for Uber. He returned while officers were on the scene at approximately 8:10 am. Mr. G [REDACTED] informed me that he did not see [REDACTED] prior to leaving the house. It should be known that while I remained on scene, I was informed by Ms. I [REDACTED] that she received a phone call from her cousin, Haddasa, that [REDACTED] had passed away.

I gathered information from Ms. Merline I [REDACTED] and Ms. Diane J [REDACTED] as to everyone who occupied the home, and I was informed of the following:

- *Dukens I [REDACTED] -Father of [REDACTED]
- *Merline I [REDACTED] -Cousin
- *Diane J [REDACTED] -Roommate
- *Haddasa G [REDACTED] -Cousin
- *Sterlin G [REDACTED] -Cousin/Significant other to Merline

[REDACTED]

At approximately 0900hrs, Detective Trevor Clark arrived, and the scene was turned over to him. He was also informed of the findings up until that point. I cleared the scene at approximately 0940hrs.

END OF REPORT-PLEASE SEE ADDITIONAL REPORTS FOR FURTHER INFORMATION

Ptl. Delvat#157
Randolph Police Department
0800-1600
02/22/25

On Saturday February 22nd, 2025, I, Patrol Officer Rodney Delvat, was called in by Lt. Zaiter regarding helping translate for a Haitian Creole speaking family, at [REDACTED]. I was informed that there was a sudden death of a 10-year-old female juvenile. I was also informed that the cause of death could potentially be due to the juvenile having a seizure in the middle of the night.

At approximately 9:30am, I arrived at [REDACTED] and upon entering the home I met with Det. Trevor Clark and Officer Vincent Saengsombat. I was informed by Det. Clark that Massachusetts State Troopers would be stopping by the home shortly to ask the family follow up questions regarding the juvenile's death. Det. Clark informed me that there were one or two members of the family who could possibly need help with translation while answering the State Trooper's questions. I introduced myself to the family and informed them that I would be on scene to help the family with translating if needed.

Shortly after the State Troopers arrived at the home and informed the family of the cause of death of the Juvenile.

See Det. Clark report for a more detailed version of events.

The Troopers then advised the family on the next steps that would be taken. Afterwards both State Trooper and Randolph Police officials exited the home.
